GRP-SMC Panel Water Storage Tanks

(1000 liters to 10 lac liters)

**From :
Verity Ventures & Logistics**

**Before we begin, a word on why we are pioneers in
GRP-SMC Panel Water Tank business-**

**Way back in 2009 we had our 1st installation of
2,00,000 Liters capacity at CIP-Ranchi, a CPWD
Project.
(Picture below)**

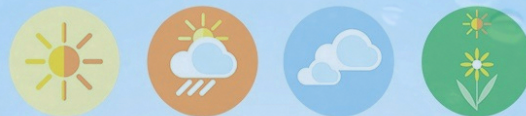

**...and our latest installation at
Agriculture Institute -Hazaribagh -
Capacity 1,62,000 liters
(Picture below)**

Best option under any condition

WEATHERPROOF

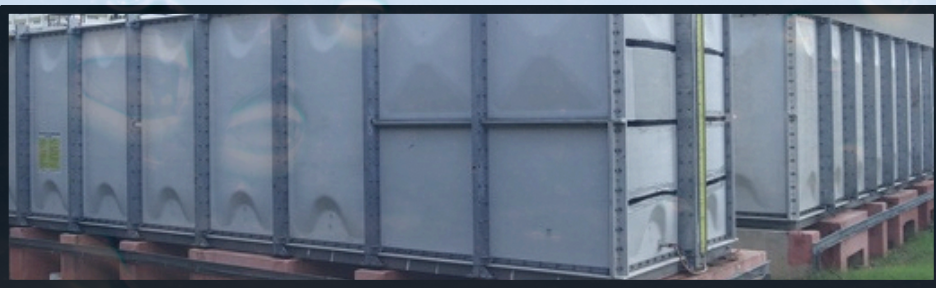

DISTINGUISHED FEATURES

- **Worldwide replacement of RCC and PS tanks**
- **Less self-weight, hence ideal for installing on existing old buildings on rooftop on hilly areas**
- **Modular in construction and hence ease of access to install at site where normal tanks cannot be installed, and it is preferred for installation at refuge floors of High-rise buildings.**
- **UV stabilized – ideal for outdoor weathering**
- **No Algae or bacteria growth in SMC Panel tanks.**
- **Panel tank requires NO regular maintenances like RCC tanks.**

ADVANTAGES OF SMC PANEL TANK

- **100% SAFE FOR THE STORAGE OF DRINKING WATER AS ALL MATERIALS ARE MADE FROM FDA APPROVED GRADES OF MATERIALS.**
- **VERY EASY TO HANDLE AND TRANSPORT.**
- **EASY TO INSTALL, CAN BE INSTALLED BY PLUMBERS AND GENERAL TECHNICIANS WITH THE HELP OF CONVENTIONAL TOOLS & TACKLES.**
- **UV STABILIZED- IDEAL TANK FOR STORING WATER IN OUTDOOR WEATHER CONDITIONS.**
- **EASY TO DISMANTLE AND SHIFT IN CASE OF CHANGE IN SITE.**
- **EASY TO INCREASE OR DECREASE THE SIZE OF TANKS.**
- **NO CHANCES OF LEAKAGE.**
- **DESIGNED FOR A LIFE OF AT LEAST 50 YEARS.**
- **BEST suited for hilly and difficult terrain.**

COMPARISION BETWEEN RCC AND SMC PANEL TANK

RCC TANK

- **1 Lac liter RCC tank project will take at least 6 months to 1 years to complete.**
- **Regular cleaning and repair required.**
- **Huge Algae and Moss formation and contamination of water.**
- **Thermal insulation is poor.**
- **Cannot increase the size once tank is build**
- **Zero possibility of dismantling and shifting of tank**
- **Effect on water quality is severe as PH value changes due to leaching**

SMC PANEL TANK

- **Half to one month required for construction of SMC tank.**
- **No cleaning or any repair ever required.**
- **No Algae or Moss formation at all. Best way to store water.**
- **Thermal insulation is Excellent**
- **Size can be modified easily**
- **Easy to dismantle and shift.**
- **No effect on quality of water.**

Spares of an SMC TANK

Full Flexibility only with GRP-SMC Panel Tanks

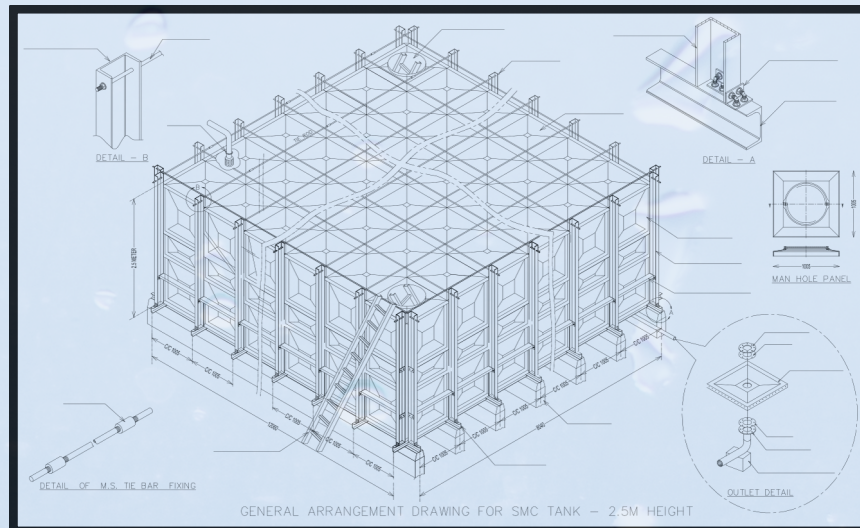

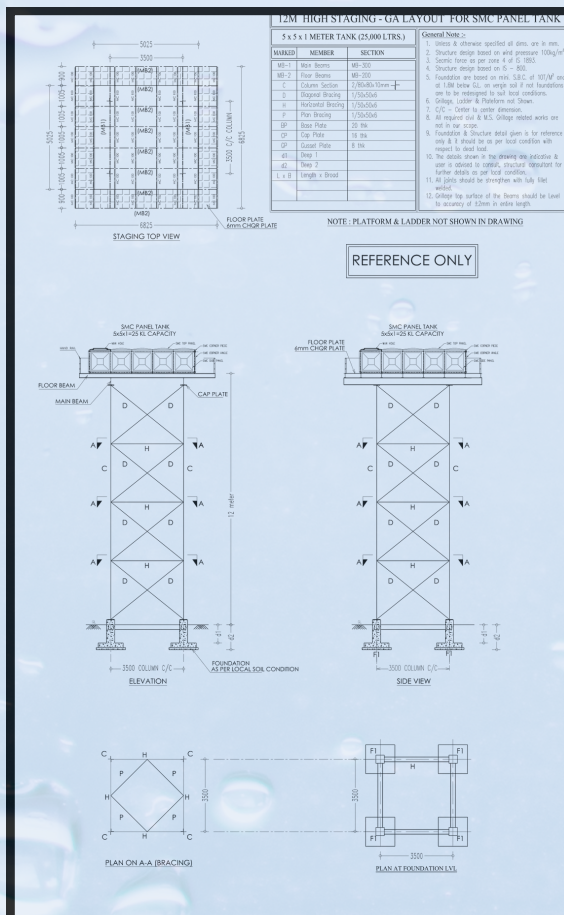

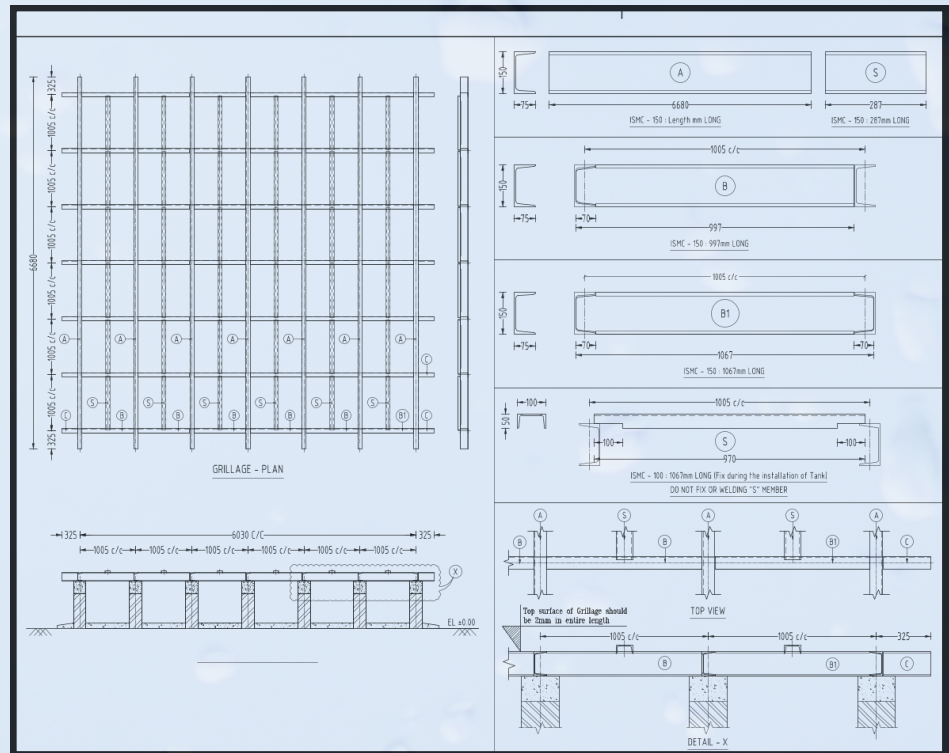

We Provide panels of various sizes as below to install the required capacity tanks in the available space

- **1 mt x 1 mt panels**
- **1mt x 2 mt panels**
- **0.5 mt x 1 mt panels**
- **0.5 mt x 2 mts panels**

Reference drawings support

**We provide
NON-VETTED
REFERENCE
DRAWINGS to
help our clients
in constructing
the staging**

About us and business growth

We had a humble start in 2008 when GRP-SMC panel tanks were hardly known to India except for a few agencies like CPWD and few regional private sector companies of west. It was in 2009 that we installed our first 200 KL panel tank at CIP-Ranchi on RCC staging and did not look back thereafter. We introduced these SMC Panel Tanks to most Indian railway zones like Eastern Railways, NF Railways, East Coast Railways, SE Railways and also in Indian Army through MES. Till date we nearly 100s of installation directly or indirectly, including private sector.

We had been the all India channel partner of all the big OEM's of the country for last 2 decades before we launched our own brand

SEVARTH

Clients being....

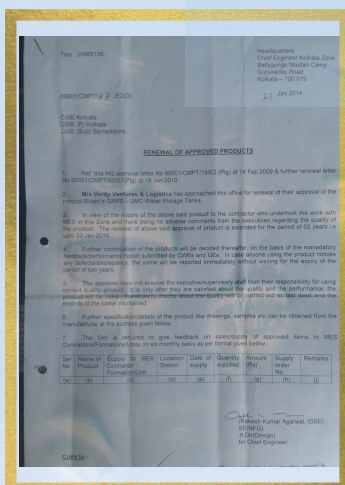

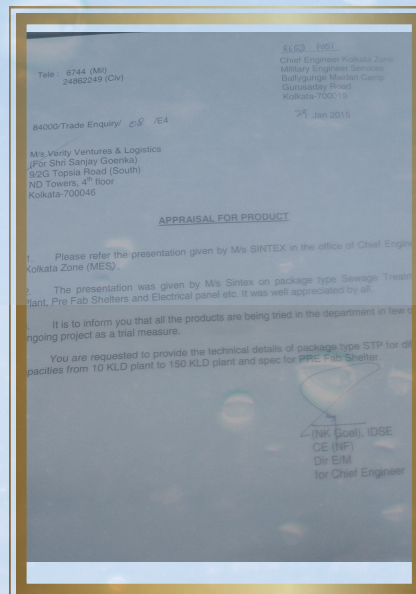

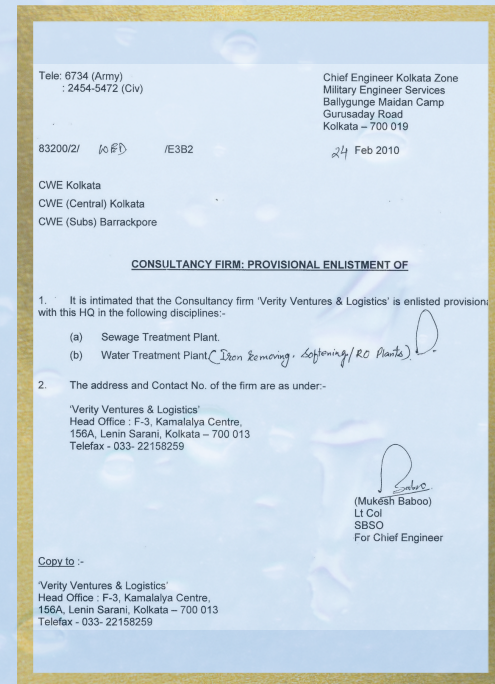

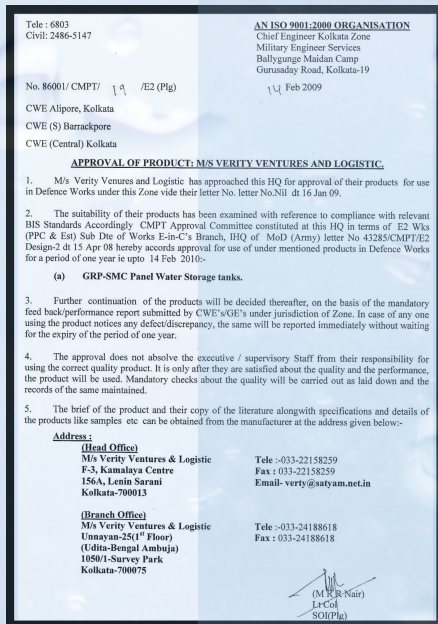

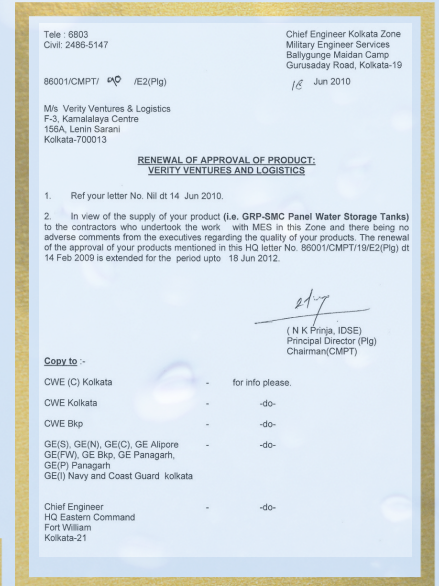

- **Indian Railways.**
- **Eastern Railway**
- **South Eastern Railway**
- **East Coast Railway**
- **NF Railway, Etc.**
- **Military Engineering Services**
- **CPWD....**

.....and many more Govt and private sector enterprises.
